Division of Infectious Diseases

A maximum of two students will be accepted in total into the programs for the year 2021-22.

Students in this program may choose an infectious disease epidemiology focus or an infectious disease biology/immunology focus. This choice will be based on the research programs ongoing at the time of admission.

For the academic year 2021-22, admissions will be restricted to students who have an active UGC NET (or equivalent) fellowship of 5 years.
