## Online Course on ‘Grant Management for Health and Social Science Researchers’

### Course details

This web-based course on ‘Grant Management for Health Researchers’ can be taken up at one’s own free time and convenience. It provides an opportunity for busy investigators who are unable to otherwise travel to learn and update their grant management skills.

- ◆ The complete duration of this course is 1 hour but it can be completed over a period of one month
- ◆ Upon successful completion, each participant will receive a Course Completion certificate from St John’s Research Institute

### Course Objectives

You may have already got a grant or research or project going on (or) you may be planning to get one started. This course will help you understand various categories of health research, different stages of grant management, diverse responsibilities of a researcher at various stages of grant management and basic competency requirements of a researcher during grant management.

At the end of the module you will be able to:

1. Define and list different types of health research
2. Describe different types of researcher roles in grant management
3. Enumerate tasks for an investigator at various stages of the research cycle
4. List and explain basic competency requirements for an investigator

### Course Schedule

<b>NO</b>	<b>NAME</b>
<b>1</b>	<b>Unit 1: Introduction</b>
1.1	Definition and Types of health research
1.2	Types of researcher roles
<b>2</b>	<b>Unit 2: Research Cycle-related tasks</b>
2.1	Tasks at various stages of the research cycle
<b>3</b>	<b>Unit 3: Basic Competency requirements</b>
3.1	Six different management skills
