

Workshop overview

The workshop aims to strengthen research skills among nursing and allied health professionals and students (post-graduate) encouraging them to utilize research-generated knowledge in routine clinical practice. It presents an overview of research designs and statistical methods and provides a hands-on training on various stages of research from problem formulation to study design, data collection, data analysis and interpretation. By the end of the workshop, participants will be able to:

- ✓ Understand the importance of conducting research
- ✓ Plan, design and conduct a research study
- ✓ Communicate the study findings

Who should attend

This workshop is primarily aimed at faculty and (postgraduate) students of nursing and allied health sciences

For further enquiry

Dr Kavya R, MPH
Course Director
Assistant Professor, Division of
Epidemiology & Population Health
St. John's Research Institute

Dr Maryann Washington, PhD
Co-director
Adjunct Professor (Nursing)
Division of Epidemiology &
Population Health
St. John's Research Institute

Organization & Delivery

Workshop will be conducted on MICROSOFT TEAMS. ATTENDANCE is compulsory for receiving COMPLETION CERTIFICATE. Course faculty will be from St John's college of Nursing and from St John's Medical College & Research Institute.

Registrations

Registration is to be done at the below link –
<https://sjri.res.in/epidemiology/activities>

Workshop fee (exclusive of 18%GST):

Before **1st November** -
Rs.1500/- (for students) & Rs.2500/- (for faculty)

After **1st November** -
Rs.1750/- (for students) & Rs.3500/ (for faculty)

Fee can be paid through:

- ✓ **Online payment gateway** through link that is shared **OR**
- ✓ **NEFT**

[**Beneficiary name:** St. John's Research Institute

Bank name: Bank of Baroda;
Beneficiary's bank A/c #:
05210100024920;
branch: John Nagar, St. John's Medical
College, Koramangala, Bangalore-560034;
IFSC code: BARB0STJOHN (5th digit zero)]

Please send in details of NEFT/online transfer
(your name and transaction ID) to:

Workshop Schedule

18th– 20th November 2021

Day	Session 1	Session 2	Session 3	Session 4		Session 5	Session 6	Session 7		Session 8	Session 9		Session 10
Day 1	9:00-9.30 Introduction and Pre-test	9:30-10:00 What is Research and why conduct research ?	10:00-10:30 What is Research Protocol ?	10:30-11:00 Let's work together !	10 min B R E A K	11:10-11.40 How to frame a research question/ research title?	11:40-12:10 What do I want to achieve through this study ?	12:10-12:40 What has been done before in the field of your study?	30 min L U N C H B R E A K	1:10-2:40 How will this study be conducted?	2:40-3:40 Let's work together !	10 min B R E A K	3:50-4:30 How much does the study cost ?
Day 2	9:00-9.30 Which is my study methodology qualitative or quantitative ?	9:30-10:00 What is the meaning of study designs?	10:00-10:30 Describing and understanding study data -1	10:30-11:00 Let's work together !		11:10-11.40 What is a study tool?	11:40-12:10 How many is enough ?	12:10-12:40 Describing and understanding study data -2		1:10-2:40 Learning a new tool - Gantt Chart	2:40-3:20 Let's work together !		3:50-4:30 Understanding Qualitative study
Day 3	9:00-9.30 Does my study need ethical approval?	9:30-10:00 Learning a new tool - Mind mapping	10:00-10:30 How do I communicate my study findings?	10:30-11:00 Let's work together !		11:10-11.40 Learning a new tool - Google documents	11:40-12:10 12:10-12:40 Group work presentation (Group 1)			1:10-2:40 Group work presentation (Group 2)	2:40-3:20 Group work presentation (Group 3)		3:50-4:30 Valedictory and Group work presentation (Group 4 &5)

- **ATTENDANCE** in all sessions is compulsory for receiving **COMPLETION CERTIFICATE**
- Each session will have 20 minutes theoretical presentation followed by 10 minutes of hands-on practical training
- Participants will work in groups to develop a study protocol during the course
- These protocols will then be presented to research experts for critical feedback and suggestions for future improvement

Feedback from earlier participants

Both theory and practical aspects of research was covered simultaneously by highly experiences facilitators. The hands-on practical training helped us in understanding theory better.

The course was a step-by-step guide on health research methods. The new tools were very interesting.
