About this course:
Health programme stakeholders such as beneficiaries, implementers, policy-makers and funding organizations all rely on monitoring and evaluation of programmes to make critical decisions on continuation or scale-up. These stakeholders may however have varying levels of control/interest in the completion of the health care project/programme.
There are limited learning resources for an overall understanding of the full scope of seeing if a proposed project has tangible results. This course will be of use to all the above stakeholders. Participants will be able to learn:
1. What is the complexity and dimensions of a healthcare project work?
2. How to track progress of the project?
3. How to demonstrate the impact of the undertaken activities?
4. How to communicate using standard language used in this field of M&E?
-- in short -->

Why are we doing this? and who will benefit from this?

Course Director:
Dr Prem K. Mony, MD
Head, Division of Epidemiology & Population Health, SJMC&RI

Course Co-Director:
Dr Tinku Thomas, PhD
Head, Dept of Biostatistics, SJMC&RI

Who is this course for?
- Donors/ Funders
- Health Service Providers
- National/ regional Health Managers
- M & E Officers
- Program Directors/ Managers
- Researchers

The M & E Course
- a mini course on Monitoring and Evaluation of Health Programmes

Dates: 1-2 August 2023

Tuition fee:
Before 15 July: Rs 8,000/- (plus 18% GST)
From 15 July: Rs. 10,000/- (plus 18% GST)

Registration is now open. Filled registration form (www.sjri.res.in) can be submitted along with tuition fee that can be paid via NEFT/credit/debit card.
What will be covered in this course?

**Day 1**

**Program Cycle & Logic Model**
How is the program supposed to work?

**Monitoring vs Evaluation**
What is the difference between Monitoring and Evaluation?

**Day 2**

**Log Frame**
What are the main elements & linkages in the project?

**Sample Size**
How many should be studied?

**Survey Methods & Sampling**
How to go about survey?

**Evaluation Designs**
What research design options are available?

**Indicators**
What sort of Indicators for Monitoring and Indicators for Evaluation?

**Resources & Timelines**

**Data Analysis**
How to make sense?

**Dissemination**
How to share findings?
