

St. John's Medical College & Research Institute

Bengaluru, India

ICMR INTENT Advanced Centre for Clinical Trials

In Collaboration with faculty from
McMaster University, Canada and Duke University, USA

Diamond Jubilee – 3rd Annual One-week Course on Randomized Controlled Trials

Sep 4th to 8th, 2023

Topics:

CME Credits for eligible candidates – Applied for KMC Credits

RCT Designs & Analysis

- RCT : key concepts
- Cluster RCT
- Factorial trials
- Non-inferiority trials
- Adaptive trials
- Expertise based trials
- Stepped wedge trials
- Implementation trials
- Community based trials
- Real world trials
- Pragmatic trials

Interventions:

- Drugs/ devices/ surgical
- Complex Behavioural

Statistics:

- Sample size for different RCT designs
- Parametric & Non-parametric tests
- Mixed linear models
- Survival analysis

Techniques:

- Randomization
- Blinding
- Allocation concealment
- Investigational Product Management

Operations and Regulatory:

- Regulatory Issues
- Documentation/ manuals
- Data management
- Adjudication
- Budgets
- Insurance/Compensation

Method: Interactive Lectures, Small group protocol discussions, Journal Clubs and Project Presentations.

Pre-requisite: Must have attended any basic short course on health research methodology.

Faculty are from St. John's, India ; McMaster University, Canada; Duke University, USA. Few sessions will be taken by video conference.

Further details : Dr. Denis Xavier, MD, MSc. (Clin. Epi), Course Director, Professor and Head, Pharmacology, Head, Div. of Clinical Research and Training, St. John's Medical College and Research Institute, Bangalore.
